

## THERMO CUTTER

### Model: 7-0

#### Features

- Continuously Operated Hand-Hold Thermo cutter with Air-cooling System, mainly for long time usage.
- Working temperature can be adjusted freely.
- Temperature can Heat up to 400℃ in Seconds.

**Standard packing info:** Cutter, Spanner, Brush, Instruction.

Input Voltage: AC230V/50Hz (110V/60Hz)
Output Power:Max 100 W
Max. Temperature:400 °C
Weight: 450g
Temperature Adjustment: 16 steps

### Model: 5-0

#### Features:

- Professional light weight hand operated tool with 16 steps adjustment knob to control temperature..
- For cutting small quantities, short-time operation only.
- Temperature can heat up to 400℃ in Seconds.For cutting glue edge of solar photo voltaic panels.

**Standard packing info:** Cutter, Spanner, Brush, Instruction

Input Voltage: AC230V/50Hz (110V/60Hz)
Output Power: Max 100 W
Max. Temperature: 400 °C
Weight: 275g
Temperature Adjustment: 16 steps
